AN INTRODUCTION TO PYXIS COMMUNICATIONS

# MAKING STARS BRIGHTER.

Pyxis
COMMUNICATIONS

# "They have a deep understanding of my market...

"Pyxis brings a blend of marketing expertise, scientific understanding and a commitment to timelines and budget. They have a deep understanding of my market and thus able to complete projects with little direction and handholding saving me time and stress. I consider them a critical part of my team."

Lisa Fret

**Marketing Communications Manager, MilliporeSigma**

# WHO WE ARE

In the complex world of life sciences, where every discovery and innovation holds the potential to change lives, the power of clear and compelling content cannot be overstated.

**This is where Pyxis Communications shines.**

Founded in 2011, our life science marketing agency has gained recognition for our expertise in distilling complex scientific concepts into engaging narratives that capture and resonate with audiences. We specialize in planning, developing, and promoting content with storytelling at its heart, transforming each data point and breakthrough into a chance to inspire, motivate, and connect.

**PYX·IS [PIK-SIS]:**
A small southern constellation (the Compass Box or Mariner's Compass), lying in the Milky Way between Vela and Puppis.

## They have helped us establish our social media presence...

We've worked with Pyxis for the last 2 years and have had an excellent experience. Heather and Shannon are highly professional and responsive. They have helped us establish our social media presence and supported technical content generation as we grew our internal team. I recommend them warmly and would welcome the opportunity to work with them again in the future. They are a great team to work with!

***Delphine Caraguel,***
***Director of Marketing Communications, MaxCyte***

# WHO WE SUPPORT

**Passion is at the core of everything we do.**

It fuels us, whether you're an emerging startup who has just secured your first round of founding or an industry leader looking to push boundaries. Uncomplicated and unwavering, we're fully committed, regardless of your company's size.

MilliporeSigma · QIAGEN · ThermoFisher SCIENTIFIC · PerkinElmer · NEW ENGLAND BioLabs · biotechne · teknova: · seqWell · MOLECULAR DEVICES · ASYMCHEM · BIOSEARCH TECHNOLOGIES · halo labs · charles river · cytiva · BECKMAN COULTER Life Sciences

"Pyxis Communications does not disappoint. Their industry knowledge, attention to detail, and marketing communications experience make them an asset to any team. It's been a true pleasure working with such professionals."

***Joan Boyce, VP, Biocompare & Former Executive Editor & Group Publisher, GEN***

# PRICING

## PROJECT-BY-PROJECT BASIS

Pyxis will provide a detailed quote for each project, which includes:

- Background research
- Meetings/interviews w/ SMEs
- Content development
- Design
- 3 rounds of edits

## RETAINER PACKAGES

Pyxis will provide a set number of hours per month, which includes:

- Content development support
- Graphic design
- Unlimited rounds of edits
- Project management
- Weekly status reports provided

## They've been instrumental in elevating our marketing...

Pyxis has been a great partner from the start providing everything we need -- campaign developments, content generation, creatives and design, copy writing and helping with our website makeover. They've been instrumental in elevating our marketing and marketing communications needs providing the expertise we lacked. I could not have imagined a better partner. It doesn't even feel like they are an external agency."

***Steven Le, Director of Marketing, Halo Labs***

# ...they go above and beyond expectations with both the quality of work and the timeliness of that work.

"Pyxis Communications is an excellent life science marketing communications agency and it was a pleasure working with Heather and Shannon. Not only did the copy exceed my expectations, but they provided the copy before my expected deadlines. I believe that Heather and Shannon are one of the best as they are easy to contact, go above and beyond expectations with both the quality of work and the timeliness of that work. I look forward to working with them again in the future."

***Jayashree Tikhe, Sr. Product Marketing Manager, BIOVIA***

halo labs

# CASE STUDY

**Challenge:**
Halo Labs, a scientific instrumentation and consumable company, needed to shift perceptions toward advanced particle analysis methods. Essential in cell and gene therapies, subvisible particles impact patient safety beyond what's visible. However, traditional technologies are limited.

Halo's product is the first of its kind, designed for precise detection, counting, and characterization of formulation excipients and subvisible particles. They required a marketing partner to help execute this vision.

**Solution:**
Pyxis launched a marketing campaign around the concept of metamorphosis, highlighting the journey toward embracing innovation and change through a captivating particle butterfly graphic. This campaign utilized a mix of assets to encourage customers to adopt a superior solution.

**Key components of the campaign included:**

- Messaging/image concepts
- Dedicated landing page
- Print ads
- Blog posts
- Paid search
- Social media
- Email nurture campaigns
- Tradeshow booth

**Benefits:**

- Increased brand recognition
- Expanded audience engagement
- Captured attention of tradeshow attendees with compelling visuals

# MaxCyte® CASE STUDY

**Challenge:**
MaxCyte struggled to establish and grow their social media presence. With irregular posting schedules, unclear branding and messaging, their visibility on social platforms was minimal. Lacking the internal resources necessary to address these issues, MaxCyte needed a strategic partner to enhance their online presence and engage effectively with their audience.

**Solution:**
Pyxis joined forces with MaxCyte as their social media partner, devising a social strategy to overhaul their online presence. We curated content calendars, established consistent branding, and led the creation and design of posts.

Content strategy involved posting ~4-5 times a week, covering a diverse range of topics including brand-specific posts, investor relations, product launches, news stories, health observance days, tradeshows, webinars, educational resources, and employee spotlights.

**Benefits:**
- Added over 4,000 new followers in 2 years
- Grew impressions from 65,000 to 290,000 (organic) in 2 years
- Elevated MaxCyte's new brand and core values

# IQVIA™ CASE STUDY

**Challenge:**
IQVIA Biotech, a full-service CRO, wanted to strengthen its thought leadership and promote its oncology expertise but faced challenges in executing a targeted marketing campaign due to resource constraints, despite already having strong messaging..

**Solution:**
Pyxis Communications stepped in as an extended team member and created a targeted marketing campaign that included:

Central oncology landing page
Blog series from subject matter experts in immuno-oncology, CAGT, and virtual trials
Article detailing the lab-to-clinic journey published in European Pharmaceutical Contractor

The campaign was amplified through organic and paid social media.

**Benefits:**
- Increased trust and credibility
- Reinforced a leading position as a thought leader
- Expanded reach and visibility

# CASE STUDY

BIOSEARCH™ TECHNOLOGIES
GENOMIC ANALYSIS BY LGC

**Challenge:**
LGC Biosearch, a provider of biotech analysis tools, reagents, and instruments, faced a challenge in transitioning QuickExtract, their top-selling product from the now-retired Lucigen.com, to a new platform. The goal was to rapidly increase online sales in Q4 by expanding marketing efforts to showcase its applications, despite lacking internal resources and requiring a fresh strategy.

**Solution:**
Pyxis designed a vibrant campaign that illuminated the pivotal role of the product in groundbreaking areas like CRISPR gene editing, space exploration, and COVID-19 studies. This forward-thinking approach yielded content that demonstrated the significant accomplishments facilitated by QuickExtract.

**Key components of the campaign included:**
- Messaging/image concepts
- Landing page
- Web banners
- Email campaign
- Social media posts
- Video

**Benefits:**
- Increased visibility among scientists and researchers
- Educated audience
- Increased lead generation, drawing prospects into the sales funnel
